

Homework Schedule (Chem 1 & 2)

The following homework schedule is intended to give each student the opportunity to practice the skills learned in the classroom on her or his own, as well as prepare for the following day of class. Please attempt each assignment individually before seeking assistance from a classmate, tutor, or myself.

This schedule is posted at the beginning of the week and subject to change according to what we accomplish in class. Please listen for any changes throughout the week. Each assignment is due the day after it is assigned unless otherwise noted. Homework will be assessed formally by the teacher, through in-class peer review, and through the student's individual performance on quizzes and exams.

Bring a calculator to class every day!
