

Meiosis: Organize Your Cards/ Popsicle Stick Chromosomes

Then Identify:

- Synapsis is occurring
- Tetrads have formed
- Crossing Over is occurring
- Independent Assortment has occurred
- Daughter cells are first haploid

Brainstorm:

4 ways to get genetic variation
into offspring:

- 1.
- 2.
- 3.
- 4.

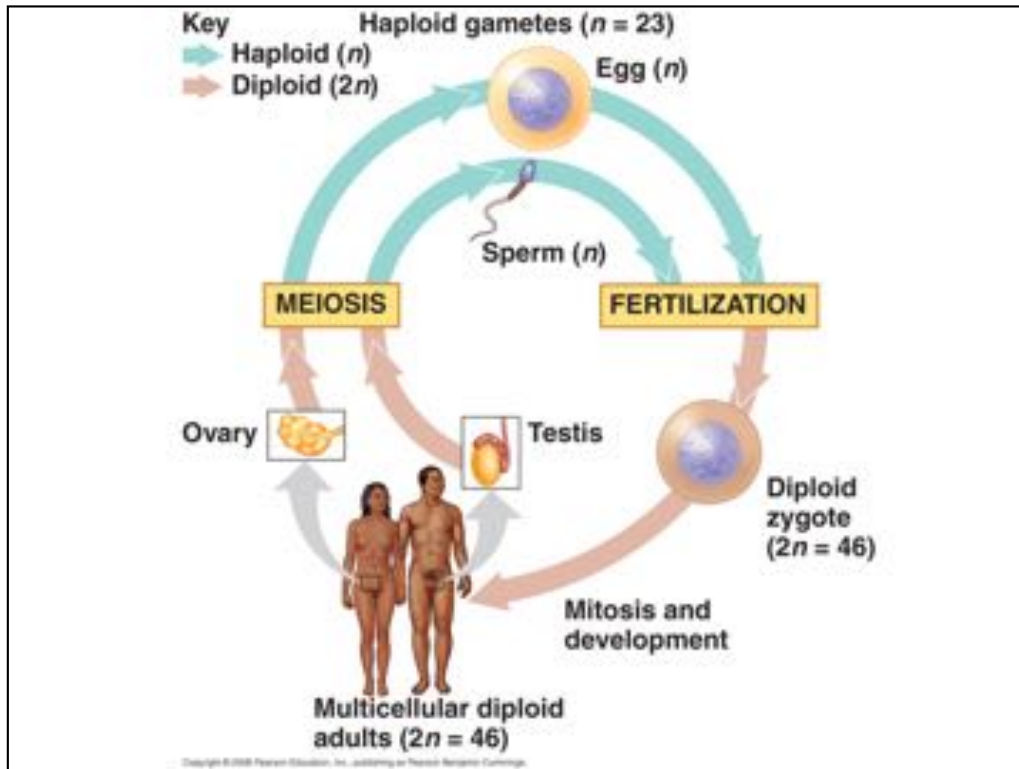

Life Cycles:

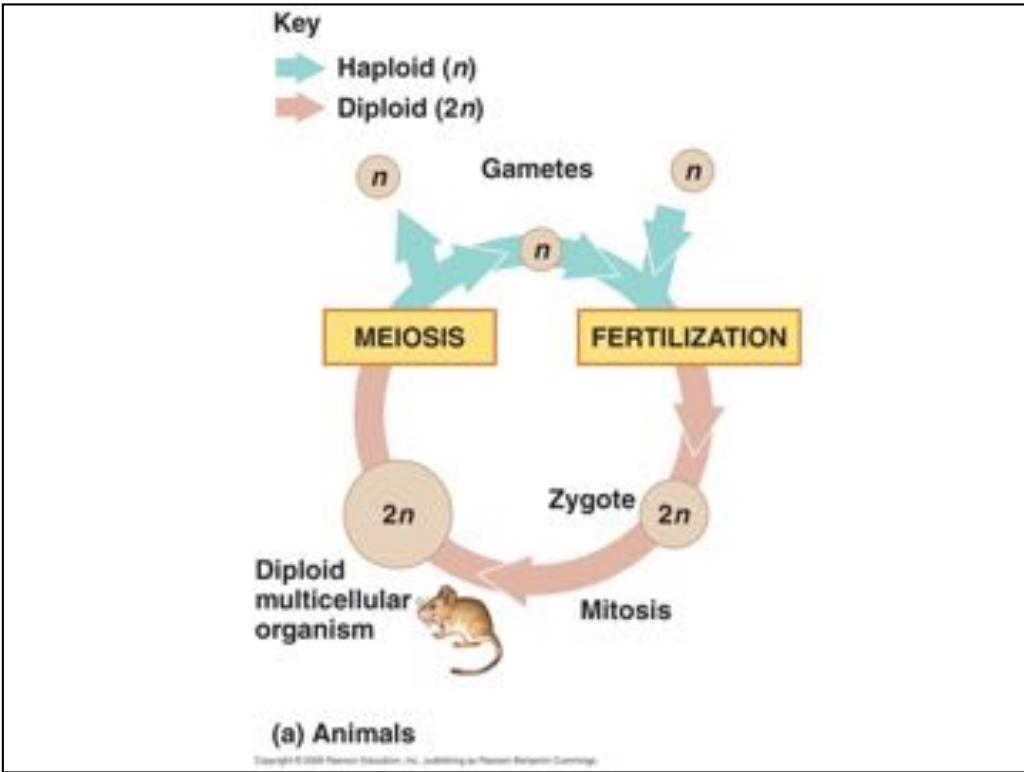

When does meiosis occur:

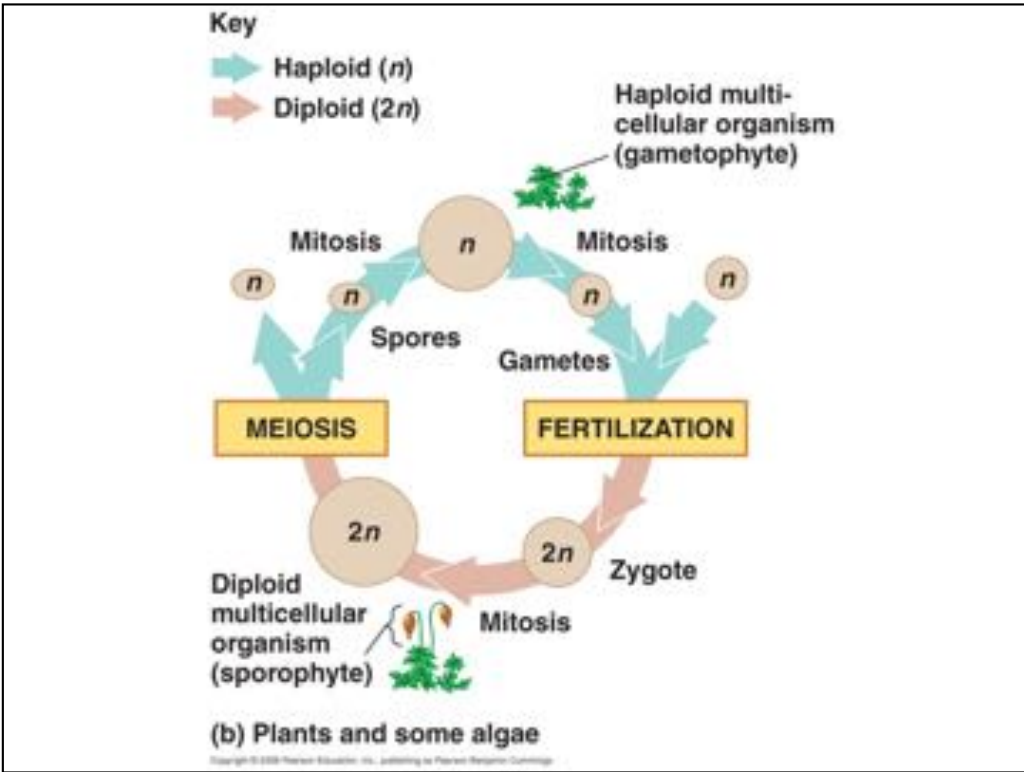

Animals (Humans)?

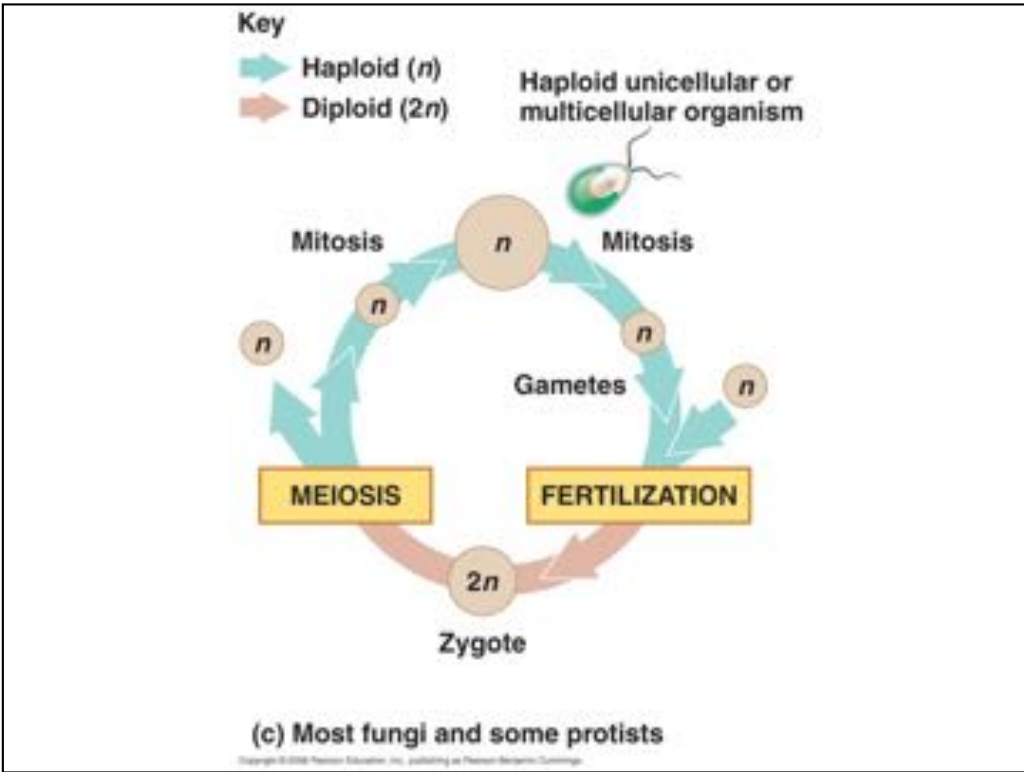

Plants?

Fungi?
